

# NMIT Kyneton Park Trainers Bulletin

Date: 14<sup>th</sup> July 2011

Dear Trainers,

## **NEW PRACTICE BARRIERS FOR NMIT KYNETON PARK**

Racing Victoria has kindly agreed to fund the purchase of a new set of Practice Barriers for the main sand track to replace the current barriers which is a great outcome for the users of NMIT Kyneton Park. The new barriers being supplied are approximately two years old and are in great condition and will be serviced over the next couple of weeks before being installed and made available for use.

The Club has decided with the supply of the new Barriers to fund and install concrete footings so that the new barriers sit level and are elevated slightly above ground level to maximise the performance and life span of the asset.

Prior to the new Barriers being installed the Club needs to remove the old barriers and close the area for around two to three weeks (starting around Monday 18<sup>th</sup> July, subject to weather conditions) to install concrete footings, provide time for the footings to cure and then install the new Barriers.

We understand that this closure may be inconvenient to some trainers, however these works will provide trainers with improved facilities.

Should you have any queries please call me on 5422 1866.

Regards

Mark Graham  
Club Manager
